

Square and cube numbers worksheet tes

Continue

Students learn how to work out square and cube numbers using multiplication. Later, as learning progresses they use calculator methods to work out square and cube roots. Differentiated Learning Objectives All students should be able to recognise the first 10 square numbers and 5 cube numbers. Most students should be able to calculate the first 15 square numbers and 6 cube numbers. Some students should be able to calculate any square or cube number and square root. Free For All View online lesson Members Only Download Presentation and Worksheet Additional Resources Revision Scheme of Work Link Properties of Number IMMEDIATE DOWNLOAD Each fortnight, I will put together a selection of resources designed to help cover the objectives of the new maths curriculum for secondary schools (Key Stage 3). These are all freely available from the TES website. You can find the full collection here I hope you find them useful Pupils should be taught to: use integer powers and associated real roots (square, cube and higher), recognise powers of 2, 3, 4, 5 and distinguish between exact representations of roots and their decimal approximations Squares and square-root bingo A delightful activity that gives learners lots of opportunities to try out their skills. Square and cube numbers, plus roots A clear presentation that gives learners practice calculating the square, cube and roots of numbers. Find the quote: Squares, cubes and roots A way for pupils to practice squaring, cubing and square rooting numbers. Squares, cubes and roots worksheet A bumper set of activities for pupils to work through, looking at the errors listed. interpret and compare numbers in standard form $A \times 10^n$ $1 \leq A$
